

UI Green Metric Questionnaire

University : Kamphaeng Phet Rajabhat University
Country : Thailand
Web Address : www.kpru.ac.th

[4] Water (WR)

[4.2] Water recycling program implementation

Water flowing Plan

Water treatment facility

Water intake pipe for treatment process

Description :

The university has implemented a project to upgrade its wastewater treatment system as part of efforts to improve the campus water supply system. Water from natural sources is treated through this system to produce tap water for use within the university. This process allows for the recycling of over 50% of the water.
